

The Thirteenth Annual Scientific Meeting of the Australasian CMC Alumni Association

Hobart, Tasmania - 20-22 October 2017

On behalf of the Australasian CMC Alumni Association, we would like to extend a warm invitation to all Alumni in the Australasian region, Southeast Asia, India, Middle East, Europe and USA to join us for the 13th Annual CMC Alumni Meeting and Scientific Conference to be held in Hobart in October this year.

Hobart is the picturesque capital of Tasmania, Australia's island state. It is steeped in history and is home to many attractions including the world-famous MONA (Museum of Old and New Art) and the Port Arthur Historical site amongst others. The natural beauty and pristine wilderness of Tasmania is well known as is the fine fresh produce and culinary delights.

The conference will be held at the **Hotel Grand Chancellor** which is on the waterfront and is in the centre of the "happening area" of Hobart. It is close to the famous Salamanca markets, the museums and restaurant strip.

The theme of this year's meeting is :

**" INNOVATIONS IN MEDICINE AND HEALTHCARE:
STEPPING UP TO THE CHALLENGES OF 2018"**

We will apply for CPD points once we have the program finalized.

The registration form and call for abstracts is attached. It is a bit early in the year, but since Hobart is a very popular destination, accommodation and flights are best booked early. It would be advisable for you to register soon, book your accommodation and travel. The Hotel Grand Chancellor has concessional rates for registered delegates.

We look forward to being together once again and participating in the scientific deliberations and the social program.
